

# The Regulation of Nanoscale Materials under TSCA and Opportunities and Strategies for Compliance

## Welcome/Introduction

1. Introduction/Overview of Regulatory Framework
  - 1.1. TSCA Section 5 PMN Requirements
    - 1.1.1. New vs. Existing Chemicals
    - 1.1.2. *Bona Fide* Requests and Prenotice Communications
    - 1.1.3. PMN Process
2. EPA Treatment of Nanoscale Materials under TSCA
  - 2.1. EPA's Position re: Substance Identity and Particle Size and Shape
  - 2.2. EPA's January 28, 2008, Publication of Criteria for Determining Whether a Nanoscale Substance Is a New Chemical under TSCA
  - 2.3. EPA Regulatory Actions re: Carbon Nanotubes and Other Nanoscale Materials: PMNs and SNURs
  - 2.4. EPA's October 31, 2008, Policy Notice on Carbon Nanotubes
3. Current and Future Directions for EPA's Nanotechnology Program
4. Compliance Opportunities/Strategies
  - 4.1. Pre-Submission Meetings with EPA
  - 4.2. *Bona Fide* Requests
  - 4.3. Nanoparticle Compliance Standard Operating Procedures
5. Questions and Comments
