

# TSCA STARTER KIT

## ARE YOU A TSCA NEWBIE?

### We offer an easy on-ramp toward TSCA compliance

If you are among the recently minted class of “TSCA newbies,” help has arrived. TSCA -- the Toxic Substances Control Act -- has long been relegated to the unique province of industrial chemical manufacturers -- those that make or import industrial chemicals. Not anymore. TSCA now applies to many businesses in the finished product community, perhaps including your company. Bergeson & Campbell, P.C. (B&C®) is pleased to offer you and your company the TSCA Starter Kit to help you understand TSCA and comply with it.

The **TSCA Starter Kit** is intended to introduce you to TSCA in a way that efficiently and clearly focuses you on what you need to know now. TSCA is a complicated law that has been around for 45 years. You do not need to know everything there is to know about TSCA; you need to know narrowly what applies to your operations and how to comply with those provisions. Tackling the entirety of TSCA is often likened to drinking from a fire hose, an apt metaphor that suggests a reality we wish to help you avoid experiencing.

Our TSCA Starter Kit introduces you to TSCA in a way that makes the “getting to know TSCA” process straightforward and non-intimidating. TSCA will continue to evolve and be implemented in ways that require businesses to know which portions of TSCA apply to their operations and which do not. TSCA is not going away, and the sooner you learn the basics and start your TSCA journey, the better off you and your company will be.

### TSCA STARTER KIT MATERIALS:

---

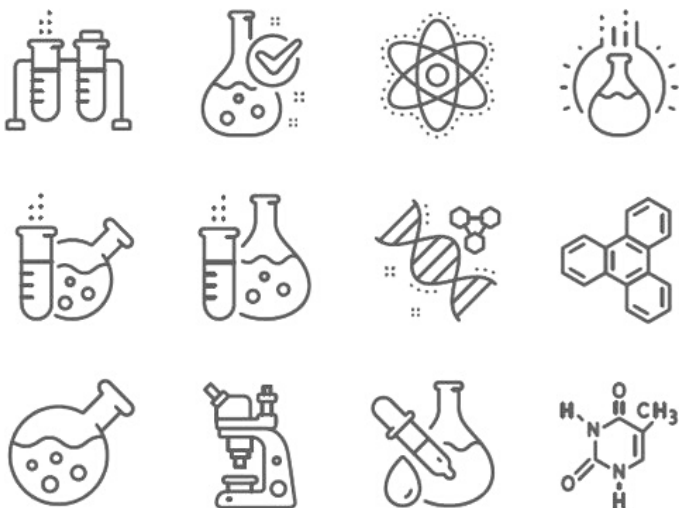

**1-hour initial meeting with B&C professionals, plus 2 hours follow-up consultation**

**TSCA Standard Operating Procedures (SOPs) and checklists**

**TSCA Tutor module "General Overview of TSCA" plus discounted enrollment in additional modules**

**TSCA Glossary, FAQ's, and curated resources**

---

## TSCA STARTER KIT QUICK-START GUIDE

1. Schedule your initial teleconference meeting with B&C professionals by e-mailing Lynn L. Bergeson, [lbergeson@lawbc.com](mailto:lbergeson@lawbc.com).
2. Based on the areas of concern identified in your B&C consultation, review the Starter Kit resources applicable to your TSCA requirements.
3. Complete the TSCA Tutor® “Overview of TSCA” module to further clarify how TSCA applies.
4. Having gained a foothold in the world of TSCA, review the other materials provided to further educate yourself regarding TSCA’s applicability to your specific product or process.
5. If you have questions, need clarification, or wish to discuss in greater detail your specific operations and the resulting TSCA requirements, you will receive up to two hours of consultation with B&C professionals by e-mail and/or phone.

For more information on procuring and using the TSCA Starter Kit, contact **Lynn L. Bergeson** at [lbergeson@lawbc.com](mailto:lbergeson@lawbc.com)
